

API Document

API stands for Application Programming Integration which is widely used to integrate and enable interaction with other software, much in the same way as a user interface facilitates interaction between humans and computers. Our API codes can be easily integrated to any web or software application.

You can start your own business for Mobile Recharge, DTH Recharge, Postpaid Mobile, Electric Bill, Landline Bill, GAS Bill, Water Bill, Broadband Bill, Insurance Bill.

API Services List

- [Mobile Recharge](#)
- [DTH Recharge](#)
- [Postpaid Mobile](#)
- [Electric Bill](#)
- [Landline Bill](#)
- [GAS Bill](#)
- [Water Bill](#)
- [Broadband Bill](#)
- [Insurance Bill](#)
- [Account Balance](#)
- [Bill Verification](#)
- [Transaction Status](#)
- [Recharge Plan](#)
- [Operator List](#)

Operator List with API Code and Rules

https://services.apiscript.in/recharge_operator_list

Parameter is used for API Request

Parameter Name	Description
username	Required - User Name for API Access
pwd	Required - Password for API Access
operatorcode	Required - Operator Code for Services
number	Required - Mobile Number/ DTH Number to Recharge
amount	Required - Amount for transaction to recharge
account	Optional Parameter (Used for Electric, Landline, GAS, Insurance, Water, Broadband, Loan, Fastag)
auth	Optional Parameter (Used for Electric, Landline, GAS, Insurance, Water, Broadband, Loan, Fastag)
bill_verify_id	Optional Parameter (Used for Electric, Landline, GAS, Insurance, Water, Broadband, Loan, Fastag)
client_id	Required - Your Unique Transaction ID (Only Number Accept)
Token	Required - Every API request. It is use for security purpose. Check how token parameter is passed.

Sample Code Available For PHP, ASP .NET, Java

<https://github.com/apiscript-in/SampleCode>

Common API Request Format Prepaid Mobile, DTH TV, Post Paid Mobile

Recharge API Request

URL For Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=MA&number=7070645987
&amount=10&client_id=100&token=EncryptTokenValue

Response:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"10","number":"7070645987","client_id":"100","operator_code":"100","recharge_dateti  
me":"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

Recharge Plan

URL For Staging: <http://staging.apiscript.in/recharge/plan>

Post Data:

username=your_username&pwd=your_password&operator=Airtel&token=EncryptTokenValue

operator possible value [Airtel,Idea,Vodafone,Jio]

Response for Success:

```
{"message":"Plan is found for Airtel","plan":[{"operator_name":"Airtel","circle":"AP and  
Telangana","mrp":"10","description":" type : Talktime talktime : You are enjoying talktime worth  
Rs.7.47","validity":"NA"},{"operator_name":"Airtel","circle":"AP and  
Telangana","mrp":"100","description":" type : Talktime talktime : You are enjoying talktime  
worth Rs.81.75","validity":"NA"}],"error_code":"0"}
```

Operator List

URL For Staging: <http://staging.apiscript.in/recharge/operator>

Post Data: `username=your_username&pwd=your_password&token=EncryptTokenValue`

Response for Success:

```
{"message":"Operator list is found","operator":[{"name":"AIRTEL","service":"MOBILE","code":"MA","rules":"Mobile No","status":"Active"}, {"name":"AIRTEL DIGITAL TV","service":"DTH","code":"DAD","rules":"Customer Id","status":"Active"}, {"name":"POSTPAID AIRTEL","service":"POSTPAID","code":"PA","rules":"Mobile No","status":"Active"}, {"name":"AIRTEL LANDLINE","service":"LANDLINE","code":"LA","rules":"Landline No","status":"Active"}, {"name":"ASSAM POWER DISTRIBUTION COMPANY LTD - NON RAPDR","service":"ELECTRIC","code":"EAPDCN","rules":"Consumer ID 12 Digits","status":"Active"}, {"name":"AAVANTIKA GAS LTD","service":"GAS","code":"GAGL","rules":"10 to 15 Alphanumeric","status":"Active"}, {"name":"BHARTI AXA LIFE INSURANCE","service":"INSURANCE","code":"IBAL","rules":"Policy Number 11 Digits","status":"Active"}, {"name":"BANGALORE WATER SUPPLY AND SEWERAGE BOARD","service":"WATER","code":"WBWSSB","rules":"8 alphanumeric","status":"Active"}, {"name":"CONNECT BROADBAND","service":"BROADBAND","code":"BCB","rules":"Directory Number 4 - 15 (digits + characters)","status":"Active"}],"error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.","error_code":"1"}
```

Transaction Status

URL For Staging: [http:// staging.apiscript.in/recharge/status](http://staging.apiscript.in/recharge/status)

Post Data:

username=your_username&pwd=your_password&recharge_id=2&token=EncryptTokenValue
or

username=your_username&pwd=your_password&client_id=100&token=EncryptTokenValue

API Response for Success:

```
{"message":"Record  
found","amount":"10.00","number":"9898598985","recharge_id":"2","client_id":"100","recharge_st  
atus":"Pending","operator_code":"NA","recharge_datetime":"2018-06-28 10:55:26  
PM","error_code":"0"}
```

recharge_status possible values are

- 1) **Pending** = Wait response from operator (Call Transaction Status API After 5 Minutes or Register Call back URL)
- 2) **Success** = Successful Transaction
- 3) **Failure** = Failure Transaction

API Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

Call back URL

Call back URL: <http://www.yourdomainname.com/callback.php>

Post Data:

```
data=%7B%22message%22%3A%22Record+found%22%2C%22amount%22%3A%2210.00%22%2C%22number%22%3A%229898598985%22%2C%22recharge_id%22%3A%222%22%2C%22client_id%22%3A%22100%22%2C%22recharge_status%22%3A%22Pending%22%2C%22operator_code%22%3A%22NA%22%2C%22recharge_datetime%22%3A%222018-06-28+10%3A55%3A26+PM%22%2C%22error_code%22%3A%220%22%7D
```

data Parameter is in URL Encode Format.

For Update Call Back URL Response, Mail us info@apiscript.in

Bill Payment

There are two Step in Bill Payment

1. Check Bill

URL for Staging: http://staging.apiscript.in/recharge/check_bill

2. Payment Bill

URL for Staging: [http:// staging.apiscript.in/recharge/api](http://staging.apiscript.in/recharge/api)

Response for Verification false:

```
{"message":" Either no bill pending/ due date has passed/ invalid biller","is_verify":"false","bill_number":"","bill_date":"","bill_due_date":"","outstanding_bill_amount":"","partial_bill":"","customer_name":"","verify_ref_id":2,"error_code":"0"}
```

Response for Verification true:

```
{"message":" Success","is_verify":"true","bill_number":"","bill_date":"","bill_due_date":"","outstanding_bill_amount":"","partial_bill":"","customer_name":"","verify_ref_id":2,"error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

Account Balance

URL For Staging: <http://staging.apiscript.in/account/balance>

Post Data: `username=your_username&pwd=your_password&token=EncryptTokenValue`

Response for Success:

```
{"message":"Success","balance":"1001.25","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

Landline Bill Payment Parameter Format

1. Airtel Landline

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=LA&number=022603258744
&amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=LA&number=022603258744
&amount=100&bill_verify_id=12&client_id=100&token=EncryptTokenValue

number: 11 digits along with STD Code

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"022603258744","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

2. BSNL Landline

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=LB&number=22603258744
&amount=100&auth=LLI&account=10521548798&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=LB&number=22603258744
&amount=100&auth=LLI&account=10521548798&bill_verify_id=12&client_id=100
&token=EncryptTokenValue

number: Landline Number along with STD Code excluding starting 0

account: Account Number 10 Digit

auth: Two possible values 3 Digit. 1) LLI 2) LLC

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"22603258744", "client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

3. MTNL DELHI LANDLINE AND MTNL MUMBAI LANDLINE

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=LMD&number=603258744
&account=1025456245&amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=LMD&number=603258744
&account=1025456245&bill_verify_id=12&amount=100&client_id=100&
token=EncryptTokenValue

number: Only Landline Number 8 Digit
account: Account Number 10 Digit

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"022603258744","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

GAS Bill Payment Parameter Format

1. MAHANAGR GAS LIMITED

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=GM&number=212603258744
&account=23451234&amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=GM&number=212603258744
&account=23451234&amount=100&bill_verify_id=12&client_id=100&token=EncryptTokenValue

number: CA Number 12 digits starts with 21

account: Bill Group Number 1-8 Digit

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"212603258744","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

2. ADANI GAS, GUJARAT GAS COMPANY LIMITED, HARYANA CITY GAS, INDRAPRAST GAS LIMITED, SABARMATI GAS LIMITED, SITI ENERGY, TRIPURA NATURAL GAS COMPANY LTD, VADODARA GAS LIMITED AND OTHER GAS BILL OPERATOR

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

```
username=your_username&pwd=your_password&operatorcode=GA&number=2260325874
&amount=100
```

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

```
username=your_username&pwd=your_password&operatorcode=GA&number=2260325874
&amount=100&bill_verify_id=12&client_id=100
```

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",
"amount":"100","number":"2260325874","client_id":"100","recharge_datetime":
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

Electric Bill Payment Parameter Format

1. DAKSHIN HARYANA BIJLI VITRAN NIGAM

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=EDHBVN
&number=212603258&account=7070654789&amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=EDHBVN&
number=212603258&account=7070654789&bill_verify_id=12&amount=100&
client_id=100&token=EncryptTokenValue

number: Account Number 9-12 digits + characters

account: Mobile Number 10 Digit

Response for Success:

```
{"message":"Your recharge request is  
accepted.", "recharge_id":2, "recharge_status":"Pending", "amount":"100", "number":"212603258",  
"client_id":"100", "recharge_datetime":"2018-06-28 10:55:26 PM", "error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.", "error_code":"1"}
```

2. JHARKHAND BIJLI VITRAN NIGAM LIMITED

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data: username=your_username&pwd=your_password&operatorcode=EJBVNL&
number=212603258&account=500&amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=EJBVNL&
number=212603258&account=500&amount=100&bill_verify_id=12&
client_id=100&token=EncryptTokenValue

number: Consumer Number 3-15 digits + characters

account: Subdivision Code 1-3 Digit

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"212603258","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

3. MSEDCLIMITED

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=EML&
number=124514545784&account=4515&auth=02& amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=EML&
number=124514545784&account=4515&auth=02&bill_verify_id=12&amount=100&
client_id=100&token=EncryptTokenValue

number: Consumer Number 12 digits

account: Billing Unit 4 Digit

auth: Processing Cycle 2 Digit

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"124514545784","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

4. TATA POWER - MUMBAI

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

```
username=your_username&pwd=your_password&operatorcode=ETPM&  
number=124514545&account=Mumbai&amount=100&token=EncryptTokenValue
```

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

```
username=your_username&pwd=your_password&operatorcode=ETPM&  
number=124514545&account=Mumbai&amount=100&bill_verify_id=12&  
client_id=100&token=EncryptTokenValue
```

number: CA Number 12 digits

account: City Name

Possible values for **account** parameter: Ahmedabad, Surat, Bhiwandi, Agra, Mumbai

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"124514545","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

5. TORRENT POWER

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

```
username=your_username&pwd=your_password&operatorcode=ETP&  
number=654558&account=Ahmedabad&amount=100&token=EncryptTokenValue
```

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

```
username=your_username&pwd=your_password&operatorcode=ETP&  
number=654558&account=Ahmedabad&amount=100&bill_verify_id=12&  
client_id=100&token=EncryptTokenValue
```

number: Service Number 1-15 digits

account: City Name (Ahmedabad, Surat, Bhiwandi, Agra)

Response for Success:

```
{"message":"Your recharge request is  
accepted.,"recharge_id":2,"recharge_status":"Pending","amount":"100","number":"654558",  
"client_id":"100","recharge_datetime":"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

6. ALL Other Biller Parameter

Check URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

```
username=your_username&pwd=your_password&operatorcode=EREM&  
number=5412457846&amount=100&token=EncryptTokenValue
```

Payment URL for Staging: `http://staging.apiscript.in/recharge/api`

Post Data:

`username=your_username&pwd=your_password&operatorcode=EREM&number=5412457846&amount=100&bill_verify_id=12&client_id=100&token=EncryptTokenValue`

number: Bill Number

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",
"amount":"100","number":"5412457846","client_id":"100","recharge_datetime":
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.,"error_code":"1"}
```

Water Bill Payment Parameter Format

1. DELHI JAL BOARD, MUNICIPAL CORPORATION OF GURUGRAM, UIT BHIWADI, UTTARAKHAND JAL SANSTHAN AND OTHER BILL OPERATOR

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=WDLB&number=212603258744&amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=WDLB&number=212603258744&amount=100&bill_verify_id=12&client_id=100&token=EncryptTokenValue

number: CA Number 12 digits starts with 21

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"212603258744","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

2. MUNICIPAL CORPORATION OF AMRITSAR

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=WMCA&number=212603258&amount=100&account=9898598985&auth=12BILL
&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=WMCA&
number=212603258&amount=100&account=9898598985&auth=12BILL&
bill_verify_id=12&client_id=100&token=EncryptTokenValue

number: Account Number 1-9 digits

account: Consumer Mobile Number 10 Digit

auth: UID 1-16 Alphanumeric

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
,"amount":"100","number":"212603258744","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Broadband Bill Payment Parameter Format

1. CONNECT BROADBAND, HATHWAY BROADBAND, TIKONA POSTPAID

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=BCB&number=212603258744&amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=BCB&number=212603258744&amount=100&bill_verify_id=12&client_id=100&token=EncryptTokenValue

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"212603258744","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

Insurance Bill Payment Parameter Format

1. TATA AIG LIFE, ICICI PRU LIFE

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=IIPL&
number=212603258&account=01-09-1989&amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=IIPL&
number=212603258&account=01-09-1989&amount=100&bill_verify_id=12&
client_id=100&token=EncryptTokenValue

number: Policy Number

account: Date of Birth (DD-MM-YYYY)

Response for Success:

```
{"message":"Your recharge request is accepted.,"recharge_id":2,"recharge_status":"Pending",  
"amount":"100","number":"212603258","client_id":"100","recharge_datetime":  
"2018-06-28 10:55:26 PM","error_code":"0"}
```

2. BHARTI AXA LIFE INSURANCE, INDIA FIRST LIFE INSURANCE

Check Bill URL for Staging: http://staging.apiscript.in/recharge/check_bill

Post Data:

username=your_username&pwd=your_password&operatorcode=IBAL&
number=212603258&amount=100&token=EncryptTokenValue

Payment URL for Staging: <http://staging.apiscript.in/recharge/api>

Post Data:

username=your_username&pwd=your_password&operatorcode=IBAL&
number=212603258&amount=100&bill_verify_id=12&client_id=100&
token=EncryptTokenValue

number: Policy Number

Response for Success:

```
{"message":"Your recharge request is accepted.", "recharge_id":2, "recharge_status":"Pending",  
"amount":"100", "number":"212603258", "client_id":"100", "recharge_datetime":  
"2018-06-28 10:55:26 PM", "error_code":"0"}
```

JWT Encode

URL for Staging: http://staging.apiscript.in/jwt_encode

Post Data:

secret_key=4836-5cbc25d9d9412-716470&email_id=info@apiscript.in

Response for Success:

```
{"encode_token":"eyJ0eXAiOiJK.V1QiLCJhbGciOiJIUzI1NiJ9.IntcllRpbWVTdGFt", "error_code":"0"}
```

Response for Error:

```
{"message":"Paramenter is missing.", "error_code":"1"}
```

API Token Generate

In Every API Request Send **Encrypt Token** Using Algorithm HS256
Refer <http://jwt.io/#debugger> or Use [JWT Encode](#) URL

Token Format: {"TimeStamp":"1536488914","EmailID":"info@apiscript.in"}

You need three Parameter for generate token:

- 4) Time Stamp => Current Time Stamp
- 5) Email ID => Your Register Email ID.
- 6) Secret Key => Share by us via Email.

Sample Code in PHP:

```
require_once 'php-jwt-master/vendor/autoload.php';
use \Firebase\JWT\JWT;

public function get_encode_token($token,$secret_key) {
    return JWT::encode($token, $secret_key);
}

public function get_decode_token($token,$secret_key) {
    return JWT::decode($token, $secret_key, array('HS256'));
}

$date = new DateTime();
$time = $date->getTimestamp();
$email_id = 'info@apiscript.in';
$secret_key = 'MySecretKey';
$token = $this->get_encode_token('{"TimeStamp":"' . $time . '", "EmailID":$email_id}',
$secret_key); // Pass this token value in every API Request
```

Sample Output Token Value:

```
eyJ0eXAiOiJKV1QiLCJhbGciOiJIUzI1NiJ9.IntclRpbWVTdGFtcFwiOlwiMTUzNjQ5MDkxMVw  
iLFwiRW1haWxJRfwiOlwiaW5mb0BhcGlzY3JpcHQuaW5cIn0i.DrTCpQ5mclAU12md_E-  
o25gALZz1Sm17CMz_sOjqcL8
```
